

Spice It Up!

Ms. Beard thinks that everyday life at Ella Mentry School is too boring for TV. Instead of letting *The Real Teachers of Ella Mentry School* show get canceled, she takes matters into her own hands and adds some spice to the school day.

How would your school be different if you could add some spice to your day? First, write down what happened in reality. Then go back and spice up your answers to make your school prime time ready.
