

# TRAIN WITH WINGS

Written by: Radiator Transmedia

## VERSE 1

Locked inside, this tiny room  
because I'm told the world is cruel  
wishing the sun would shine again  
in this gray world I'm living in

Shadows dance, on my walls  
the only friend I know at all  
never had a chance to say goodbye  
my message to the other side

Get you to the willow tree  
erase our misery  
hold you tightly close to my chest  
I know I need to get you there  
and there's no time to spare  
till I lay you where you can rest

## CHORUS

Take these ashes home with care  
a train with wings will take us there  
in the sky, to say goodbye  
on a train with wings that fly

## VERSE 2

Down the path, through iron gates  
a shadow ghost leads the way  
no time to stop, or be afraid  
like a baby sparrow flies away

Enemies at every turn  
so few to trust, so much to learn  
looking back with no concern  
goodbye attic I won't return

Get you to the willow tree  
erase our misery  
hold you tightly close to my chest  
I know I need to get you there  
and there's no time to spare  
till I lay you where you can rest

CHORUS 2

Take these ashes home with care  
a train with wings will take us there  
in the sky, to say goodbye  
on a train with wings that fly

BRIDGE

It takes love to find the light  
let your heart be your guide  
to a place where nothing dies  
if you believe, then you know  
all the magic's found inside  
then you know,  
that what's impossible can come to life

CHORUS 2

Take these ashes home with care  
a train with wings will take us there  
in the sky, to say goodbye  
on a train with wings that fly
